

Dubai Business Internships Year 2

August 2015

James Maughan
DBI Director, Falcon and Associates

Programme Structure

**Business
Internship**

**Training
Modules**

**Cultural
Understanding**

Building on the success of DBI year 1, to bridge more skills and work-readiness gaps in year 2

DBI takes participants on a holistic and immersive learning journey, turning them from graduates to the professionals that employers are really looking for

This is made possible by a learning journey that combines competency-based business fundamentals, regional exposure, a real life internship with leading organisations, problem-solving skills that culminate with a real consulting project where participants are coached by top strategy consultants

An enriching employer-driven professional development that has the potential to serve as an education-to-professional-readiness model for higher and corporate education to follow.
