Dubai Business Internships Year 2

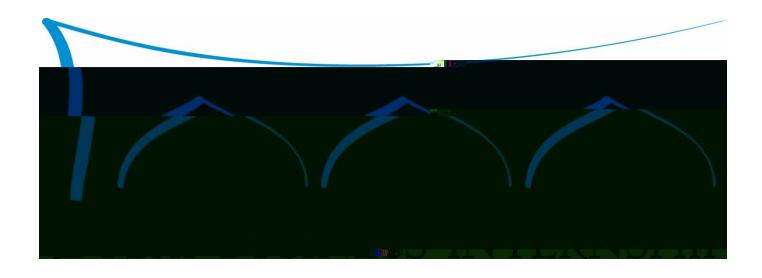

August 2015

James Maughan

DBI Director, Falcon and Associates

Programme Structure

Business Internship

Training Modules

Cultural Understanding

Building on the success of DBI year 1, to bridge more skills and work-readiness gaps in year 2

DBI takes participants on a holistic and immersive learning journey, turning them from graduates to the professionals that employers are really looking for

This is made possible by a learning journey that combines competency-based business fundamentals, regional exposure, a real life internship with leading organisations, problem-solving skills that culminate with a real consulting project where participants are coached by top strategy consultants

An enriching employer-driven professional development that has the potential to serve as an education-to-professional-readiness model for higher and corporate education to follow.

Enticing bridge to the working world for both graduates and talent-hungry employers
